

Earthworm Landscape Design Co is hiring a landscape designer

This is an Alberta-based design studio known for artistic, hand-drawn custom plans for the past 27 years in the Edmonton area.

We are looking for One Exceptional Landscape Designer who loves:

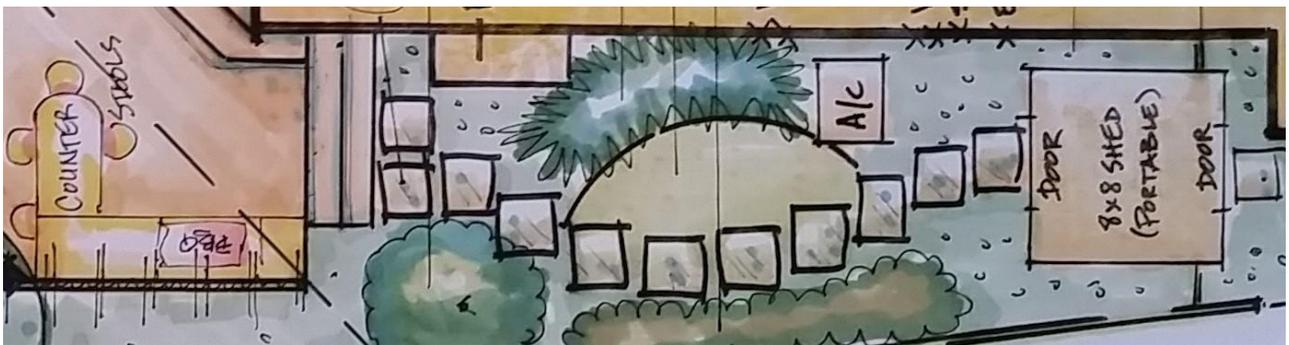

- Hand drawing and rendering scale plans
- Strong horticultural knowledge
- Interactive discovery meetings with clients
- Creating attractive residential living spaces
- And has a passion for thoughtful, artistic design

This is not a drafting job.

It is an opportunity to be mentored directly, master your craft, manage your own schedule, and focus on design rather than business management.

If this aligns with you, I would love to see your work (3 hand-drawn projects), a resume, and a short introduction all sent to my email below.

Adele Duguay BSc (Agr) Landscape Horticulturalist
